SUBJECT INDEX

The following abbreviations indicate the *Journal* department in which the indexed material appeared: aad, Assessing the American Diet; ab, New in Review; aca, Achieving Competitive Advantage; af, ADA Foundation; am, Annual Meeting; c, Commentary; fyi, For Your Information; i, Of Interest to You; le, Letters to the Editors; leg, Legislative Highlights; p, s, and om refer to publications, software, and other media, respectively, in the Practitioner's Bookshelf department; pi, Of Professional Interest; pp, Perspectives in Practice; rep, ADA Reports; res, Research; rev, Review; rpb, Research and Professional Briefs; sfa, Seventy-fifth Anniversary. Abstracts of presentations at Annual Meeting were published as a supplement to the September issue of the *Journal* and are indexed within that supplement.

A

Acquired Immunodeficiency Syndrome (AIDS)
- aggressive nutrition support in, ab 1553
- assessment of nutritional status, nutrient intake, and nutrition support in, rpb 477
- dietitians as AIDS educators, ab 1535
- elemental formulas for patients with, ab 1553
- human immunodeficiency virus infection
  - effect of nutritional status on progression of, ab 254
  - food habits and nutrition beliefs of person with, ab 1553
  - herb use by patients with, ab 628
  - latent, hypermetabolism in, ab 230
  - malabsorption and growth failure in children with, ab 902
  - micronutrients in, ab 1554
  - nutrition of children with, ab 254, ab 1553
  - nutrition problems and support strategies, ab 1415
  - short-term weight loss in, ab 884
- legal implications for managers, pp 74
- reversible malnutrition in, ab 498
- thiamin deficiency in, ab 768

Adolescents—see also Children
- adherence to gluten-free diet, ab 377
- birth weight and overweight in, ab 232
- controlling fat intake of, ab 1532
- diet and sexual maturation in girls, ab 620
- dieting and purging behavior in high school students, res 306
- food frequency questionnaire for, res 313
- hypercholesterolemia in, ab 384
- iron status of girls, ab 1533
- nutrient intake and age of menarche, ab 494
- nutrition assessment of female cross-country runners, rpb 611
- nutritional status, ab 130
- obesity
  - and aerobic fitness in girls, ab 232
  - lipids, exercise, and risk for coronary heart disease, ab 1533
  - predictors of desirable weight for black and white girls, res 450
- pregnancy
  - cravings and aversions, res 1479
  - determinants of weight gain, res 1348
  - food and nutrient intake of whites, rpb 1127
  - genitourinary tract infections, rpb 1513
  - prepregnancy weight and maternal weight gain compared with young adults, rpb 1515
- 3-day food record vs 24-hour recall by telephone for dietary evaluation, rpb 743
- weight perceptions of high school students, ab 641

Agriculture—see also Cereals
- integrated pest management, fyi 931
- sustainable, ab 1428

Alcohol
- alcoholism
  - coffee and, ab 498
  - enteral nutrition for liver disease associated with, ab 760
  - mortality risk reduced by long-term abstinence, ab 893
  - and nutritional status, ab 640
- beer's effect on gastric secretion, ab 502
- caloric intake and metabolism of, ab 622
- and coronary disease risk, ab 238, ab 382, ab 758, ab 1545
- effect of ethanol intake on weight gain and lipid storage, ab 1178
- effect of intake on lipid values, ab 886
- effect of red wine on glucose tolerance, ab 1169
- in human milk, ab 508
- ingestion after viral hepatitis, ab 123
- intake and stroke, ab 114
- intervention for early-stage risk drinkers, ab 510
- maternal use and birth defects, ab 624
- and obesity, ab 109
- retention in food preparation, rpb 486

Allen, Helen Bricker, obituary, 1451

Allergies—see Food allergies/sensitivities

Alzheimer's disease
- acetyl-carnitine and, ab 1424
- aluminum in drinking water and, ab 256

American Dietetic Association, The
- Achieving Competitive Advantage, new strategic plan, c 1069, le 1208
- annual meeting
  - abstracts of speaker presentations, A-9 (indexed A-130)

Amino acids
branched-chain, supplementation in pediatric end-stage liver disease, ab 1532
carnitine deficiency caused by valproic acid, ab 1028
L-tryptophan and eosinophilia-myalgia syndrome, pp 844
Anemia—see also Iron
detection of, ab 378
diagnosis in hospitalized elderly, ab 114
in the elderly, ab 1293
vitamin C and folate in treatment of, ab 1424
Anorexia nervosa—see Eating disorders
Anthropometry
bioelectrical impedance analysis
body water measured by, ab 109
for measuring lean body mass, ab 622
of patients with cirrhosis and ascites, ab 1018
vs caliper method for determining body fat, rpb 1395
body composition
ethnicity and, ab 752
in growth hormone–deficient adults, ab 1284
research techniques for assessment, pp 454
visual estimation of, ab 1423
body mass index
and age, ab 1531
erroneous nomograms for, ab 365
vs waist:hip ratio as screening tools, ab 1022
comparison of four standards of assessing relative weight, ab 387
and dietary assessment of adults with cerebral palsy, res 1083
identification of indicators and cutoff points for Hispanic women, res 1343
indicators of coronary heart disease, ab 754
maternal skinfold measurements for predicting birth weight, rpb 1393
meaning and measurement of lean body mass, ab 129
in nutrition assessment of end-stage renal disease, ab 642
predictors of desirable weight for black and white obese adolescent girls, res 450
reference data on weight and length gains of infants, ab 381
self-reported vs measured weights and heights, res 1483
stature of adult celiac patients, ab 240
weight-for-height measurement to predict cholesterol levels in children, res 192
Arthritis, rheumatoid, fasting and vegetarian diet for, ab 508
Ascorbic acid—see Vitamin C
Atherosclerosis—see also Coronary heart disease
low-density–lipoprotein oxidation and, ab 1422
Athletes—see also Exercise; Sports nutrition
comparison of dietary practices, knowledge, and attitudes among women, res 299
endurance cyclists, dietary intakes during training and racing, rpb 986
ergogenic aids, fyi 1213, rpb 1264
immune parameters and diet of, ab 123
nutritional status in, ab 1172
runners
adolescent, dietary intake, exercise training, and menstrual abnormalities, rpb 89
adolescent female cross-country, nutrition assessment of, rpb 611
women, effect of iron supplementation on endurance, ab 1546
ultraendurance, feeding for, pp 1258

B

Beef—see also Meat
development of low-fat hamburgers, ab 116
fatty acids and preparation of steaks, ab 1420
ground, fat content and characteristics of, ab 894, res 1367
wild rice/ground beef mixtures, ab 506
Billing and reimbursement
clinical nutrition services, pp 1385
coding for malnutrition in prospective payment systems, rpb 737
implementing a payment system, ab 374
third-party, for diabetes outpatient education, ab 1023
Blood pressure—see also Hypertension
body fat as predictor of, ab 1412
and cadmium exposure, ab 367
hereditary and environmental influences on, ab 245
vitamin C as regulator of high-density–lipoprotein cholesterol and, ab 1172
Board, Sally Ann Linkous, obituary, 154
Bone metabolism—see also Osteoporosis
bone density in women given L-thyroxine, ab 496
bone mineral density in eumenorrheic and amenorrheic young women, ab 754
diet, hormones, and bone density, ab 622
nutrition knowledge and attitudes, dietary practices, and bone densities, res 299
tamoxifen preserves bone density, ab 1029
vitamin D supplementation and wintertime bone loss, ab 498, ab 1029

Nominate a 1992 Journal article for the prestigious Huddleson Award

Criteria are:

- the first author must be a registered dietitian
- the article must have made a major contribution to the field of dietetics
- the article must have been a peer-reviewed article published in the Journal in 1992

See page 1452 for more details
